The all-weather course at Wolverhampton forms a flat, left-handed oval circuit of just under a mile in length. It was relaid in summer 2014 and the surface was changed to tapeta. The bends are fairly sharp and with a straight of under two furlongs in length it favours horses with the ability to hold a good position as opposed to those who need time to find full stride.

Had a productive winter on all-weather, completing a hat-trick in February. Creditable third of 12 at Beverley on turf when not getting clear run 23 days ago and looks set to run well back at a track he's got a previous win at.

Second at Southwell on stable debut over this trip in March and shaped much better than the result when fourth of 7 in a handicap here 17 days ago, not getting a clear run and finishing with running left. Has 3 course wins to her name and can gain compensation.

**Alfie Redman (31b/1kg)**

Didn't achieve much over hurdles last summer and probably needed runs when down field at Dundalk both starts this year. Well worth noting, however, that he won back-to-back races at this track around this time last year and he'll be suited by the step back up in trip so merits plenty of respect.

LEUCOTHEA was more in need of the experience than the market suggested when second at Bath on debut, so with that run behind her she could be ready to go one better. NANA'S BOY GEORGE has a 7 lb pull in the weights with the thriving Enter Sandman for a nose defeat and should prove able to reverse the form with that one given he should also relish the step back up to 6f. Leonie looks a progressive filly who could pose a threat.
